

Appl'n No: 09/807,634  
Amdt dated March 19, 2004  
Reply to Office action dated November 19, 2003

**REMARKS**

Claims 1, 4-7 and 16-24 remain in the application and are indicated as being allowed. The Examiner has indicated that the application is in condition for allowance except for the following formal matters.

The drawings stand objected to under 37 CFR 1.83(a) because they do not show every feature of the invention specified in the claims, specifically the phase angle variator. Applicant has amended the drawings and attached a replacement sheet for Figures 11, 11a, 11b, 12, 13b, 14. Applicant has added the indication of the phase angle variator to each of the Figures as set forth in the claims and specification.

Accordingly, it is believed that the application is in condition for more favorable consideration and Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

---
